

RACHING

**Raching CT48A constant temperature and humidity
intelligent cigar humidor**

Extra large capacity

Stainless steel
anti-fingerprint

Precise control of
temperature and humidity

Spanish cedar wood
8 shelves

Embraco Vector
Inverter Compressor

"Ammonia
Clean" system

Luxury Residence

Extra large space with 8 Spanish cedar wood shelves
Big Enough

450L
extra large

can stored
about 4000
sticks

Luxury design, space grey

A sense of the future

No fingerprints

No scraping

Easy to clean

Built-in COB ambient light with only one glance to fall in love

Softer and more uniform light than traditional LEDs,
no bead particles

Temperature and humidity balancing technology provides a stable environment for cigar aging.

PID precision intelligent frequency conversion

Dual climate system

Constant humidity

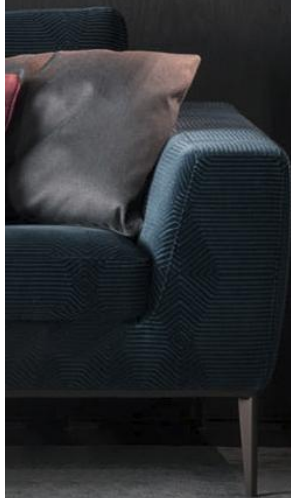

0 Dehumidification

Glacier living water type humidification

App temperature and humidity monitoring

TRADITIONAL CIGAR HUMIDOR WITH STRONG HUMIDITY FLUCTUATIONS

HUMIDITY FLUCTUATION <2% IN RACHING CIGAR HUMIDOR

Embraco inverter compressor

We use Embraco inverter compressor,
we don't use of refrigerator-type refrigeration compressor,
High performance, quieter and more environmentally friendly.

Low noise does not
disturb your daily life

Low consumption
and power saving

High efficiency vector
frequency conversion

R600A

NEW REFRIGERANT

It uses R600a refrigerant, which is environmentally friendly.

All Spanish cedar wood

We are the first in the industry to feature all Spanish Cedar wood, with a pleasant wood aroma, creating a "mansion" for cigars to grow and flourish. Equipped with 8 Spanish cedar wood shelves (3 with rails) to increase the flavor of cigars, repel insects and moths, absorb moisture, breathable heat insulation, anti-corrosion and anti-mold.

Humanized shelf dividers, which can be freely moved and disassembled, rationalize the use of storage space and meet the needs of different sizes of cigar storage.

Craftsmanship details

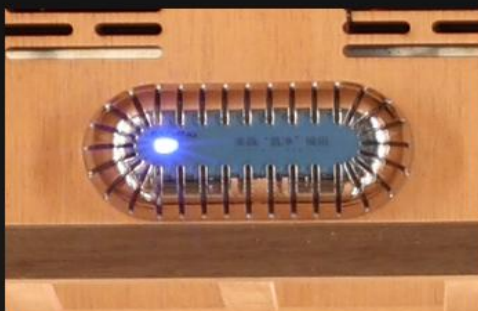

Black LCD touch panel

Freestanding cigar
humidity adjustment area

Shelves with rails

Concealed Door Handle

Standard "Ammonia Clean"
ammonia removal system

Specifications

MODEL

CT48A

Material

Stainless steel

Temperature range

15–22°C

Humidity range

60–75%

Effective volume / Number of shelves

450L / 8

Temperature control system

Water-cooled

Display

LCD backlit touch screen

Compressor

Embraco

Storage capacity

Approximately 4000 sticks

Dimension(W*D*H)

690 x 700 x 1850
